PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building and deploying scalable, responsive, and high-performance web applications. Proficient across the full stack — from modern UI development with React and TypeScript to backend systems and RESTful APIs with Node.js and Python. Passionate about clean code, performance, and building reliable digital solutions that are ready for real users. Currently open to remote roles and freelance opportunities worldwide.

EXPERIENCE

Full-Stack Developer — Freelance & Personal Projects

2022 — Present

Self-Employed · Remote · Worldwide

- Built and deployed scalable full-stack web applications for real-world use cases across the entire development lifecycle.
- Developed responsive, high-performance user interfaces with React and TypeScript.
- Built backend systems and RESTful APIs using Node.js and Python (FastAPI).
- Managed databases and data architecture with MongoDB.
- Deployed and maintained production applications on Vercel and Render.
- Integrated third-party APIs and managed version control with Git and GitHub.
- Leveraged AI-assisted development tools including GitHub Copilot and Cursor to improve delivery speed.

Software Development Scholar

2025

Simvo Africa · Scholarship Programme

- Completed an intensive full-stack software development scholarship programme.
- Built and deployed real-world projects applying modern web development practices.
- Gained hands-on experience across frontend, backend, and deployment workflows.

PROJECTS
